Digital Instruction Development and Delivery Badge

Description: Earners of this designation successfully completed all elements of the Digital Instruction Development and Delivery requirements. Earners are able to create interactive learning content using computer-based instruction authoring software, utilize software capable of developing videos, and deliver learning content via a Learning Management System.

Criteria: Creation of a 20-45 minute Computer-Based Instruction lesson on a topic using any of the following: Adobe Captivate, Lectora Inspire, or Articulate Storyline. The lesson contains a responsive format, uniformed theme, self-created audio and video, time-lined transitions, animated objects, and quiz with Drag and Drop interactions.

Criteria: Creation of a lesson on a topic using any of the following: Canvas, Blackboard, or Moodle. Lesson contains logical course structure, course content, discussion board, uniformed theme, and self-created audio and video.
